

Costa Lambrianos (Pty) Ltd

URECO HIGH PERFORMANCE SERVICED URINAL OUTLET DEVICE

URECO High Performance Serviced Urinal Outlet Device

Sanitises & Freshens your urinals with the incorporation of the new odour lock system.

- Save water and money
- Uses advanced Enzyme technology
- Protects the environment
- Improves urinal appearance
- Prevents foul odours
- Replaceable cap at 3-4 months*
- Patented technology
- Available in White or Chrome finishes

The protected technology behind the Ureco System uses hydraulic physics to create a highly effective odour lock, preventing unpleasant smells from the drains reaching the washroom.

Model Numbers:

Chrome Installation Kit: UR-IK-0010
Chrome Refill Kit: UR-RK-0010
White Installation Kit: UR-IK-0020
White Refill Kit: UR-RK-0020

Features & Specifications:

- Patented surface tension technology creates an odour lock which helps to eliminate drain odour.
- Fits most urinals when used in conjunction with our market specific adaptors.
- Improves urinal aesthetics.
- The enzyme block contains far more active ingredient than its closest rival, resulting in approximately 30x the performance of its competitors, making it "the must have" for washroom hygiene.

* depends on usage

Costa Lambrianos (Pty) Ltd

URECO HIGH PERFORMANCE SERVICED URINAL OUTLET DEVICE

How it works...

As urine passes through and around the "bio-cap", a small amount of bio is eroded into the solution, activating the enzyme, which breaks down the uric salts and lime scale.

This results in a completely harmless and eco-friendly bacterium which eliminates the need for strong chemicals and cleaning agents.

The Ureco System also emits a powerful minty type fragrance which reduces the need for aerosols and air fresheners.

URECO HIGH PERFORMANCE SERVICED URINAL OUTLET DEVICE REFILL KITS

- Renew the unbeatable high performance of your URECO Urinal Outlet Devices
- Easy to install
